ITIL® V3 Executive Awareness

Pultorak & Associates ITIL Version 3 (V3) Executive Awareness course is a half-day, instructor-led course providing a general introduction to IT Service Management tailored to executives. The focus is on key terminologies used, what the different service management processes are, and how implementing service management practices can benefit the business and IT in general. It is designed for executives to answer the questions they have and provide the information they need to make the right choices when it comes to their service management efforts. Content includes business value, justification, tooling considerations, implementation sequence, and program management aspects.

Who Should Attend?

The ITIL V3 Executive Awareness course is an overview and is intended for IT and business executives responsible for setting the strategy and business objectives of their organization.

Prerequisites

There are no prerequisites for this course.

Course Structure

The course consists of a half-day of instructor-led training with optional half-day workshop. There is no certification exam associated with this course.

Course Materials

All participants receive a participant kit which includes a copy of the course presentation with extensive notes, job aids, handouts, as well as the Glossary.

Pultorak & Associates can deliver this class for you, or you may opt to purchase our course material to deliver yourself.

Training Objectives

This course aims to provide a general introduction to IT Service Management and how it contributes to the IT and business objectives. The focus is on key terminologies used, what the different service management processes are, and how its implementation can impact the IT operations in general. This course is designed to provide
