

ITIL® V3 Intermediate Qualification: Managing Across the Lifecycle CBT or eLearning

Pultorak & Associates' ITIL Version 3 (V3) Intermediate Qualification: Managing Across the Lifecycle Computer-Based Training (CBT) / eLearning Course offers an interactive, self directed learning experience that provides optimal flexibility and value for your training dollars. The real world experience of our team of experts has been captured in a multimedia training application that is designed to provide engaging content in a straightforward, no non-sense introduction to ITIL V3. We offer this 30-hour fully accredited course as a Web application or hosted on your eLearning system.

The Managing Across the Lifecycle Certificate is a freestanding qualification, but is also the final module of the Service Lifecycle and / or Service Capability modules that leads to the ITIL Expert in IT Service Management.

The CBT / eLearning also includes job aids, handouts, the official syllabus and sample exams, as well as the ITIL Glossary.

Optional Certification Examination

Upon completion of the course, candidates may sit the optional ITIL V3 Intermediate Qualification examination leading to the ITIL Intermediate Qualification: MAL Certificate. Ninety (90) minutes (120 minutes and the use of a dictionary for those taking the examination in a language other than their first language) is allowed for the closed-book, supervised examination which may be online or paper-based. The examination is a complex multiple choice format and consists of eight (8) scenario-based, gradient scored questions. Each question will have four possible answer options, one of which is worth 5 marks, one which is worth 3 marks, one which is worth 1 mark, and one which is a distracter and achieves no marks. Proof of attendance at an accredited training course will be required prior to taking the exam.

Participant Prerequisites

Participants who wish to be eligible for the examination should provide documentary evidence prior to the course that they hold the ITIL Foundation Certificate (the V3 Foundation or V2 Foundation plus Bridge Certificate). It is strongly recommended that candidates read the ITIL Service Lifecycle core publications in advance of attending training for the certification.
